AMPSHARE BATTERIES & CHARGERS

AMPSHare - Powered by Bosch is a power source that works across expert brands, allowing various applications to be powered by one battery system.

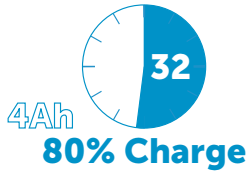

COMPLETE FLEXIBILITY

Use the same battery for the new cordless MULTIMASTER AS with AMPSHare interface and for all 18V cordless devices with AMPSHare or Bosch Professional 18V battery interface.

ELECTRONIC CELL PROTECTION

Reliably protects the battery from overload, overheating and total discharge.

FASTER THAN EVER CHARGING

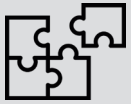

LEADING TECHNOLOGY

Copper end plates, welded cell connectors and power rails in AMPSHare batteries provide reduced resistance and greater efficiency, so tools can draw higher currents over a longer time.

COOLPACK 2.0 TECHNOLOGY

4 Ah, 8Ah and 12Ah Batteries are equipped with CoolPack technology that delivers longer life for batteries with better heat management to protect the cells from damage.

Each cell is housed in its own heat sync with no air gaps between cells for better heat dissipation. More surface area on the shell provides better heat transfer to the outer surface.
